

What has been the most impactful moment for you?

Getting to experience Jewish culture and customs first hand. It was something very special that I will never forget.

What has been your favourite excursion & why?

The Golan Heights trip and visiting the border of Syria. Lots of good history to revisit there.

Tell us about a time you witnessed a moment of community or service with your fellow volunteers?

I've experienced community in our early morning devotions. Occasionally we will take time to pray over one another and say how blessed we are by them being here. It really means a lot to me.
